April 24, 2023

Hi:

We had a meeting on Saturday, March 25, 2023, with Kristen Van Fleet, Susan Light and Banhu Iyer, as well as Annette Glanckopf from the Midtown Residents Association, to discuss the proposed new residence for Nitin Handa at the vacant lot on Ellsworth at Middlefield. One of the topics of discussion was traffic/safety. As a result of this discussion and a subsequent discussion with the City of Palo Alto staff, Hexagon Transportation Consultants, Inc. was retained to conduct a field study of the existing conditions for traffic and safety, and to review the possible affects the addition of a 3 bedroom/2.5 bath single family home might have to the Ellsworth/Middlefield intersection.

The study is complete and Gary Black, president of Hexagon Transportation Consultants, along with Ken Hayes, President of Hayes Group Architects, are going to be at the Mitchell Library on Tuesday, April 25 at 6pm to review the study, discuss the findings and answer any questions. Nitin Handa will also be there to take any questions regarding his proposed home plans.

We hope you can make the meeting.

Sincerely,

RLD LAND, LLC
