CAUTION: This email originated from outside of the organization. Be cautious of opening attachments and clicking on links.

Dear Mayor Stone, Vice Mayor Lauing, and members of the City Council,

City Staff have changed line item 2 of the approved motion of December 11, 2023, and they have chosen to avoid line item 3 via deferral. Neither of these points respects the Council motion. Please vote to remove item 7 from the agenda on February 5, 2024, and fix the language of the ordinance to maintain the safety measures approved by the Council.

Thank you.

Ellsworth Place Resident

Dear Council Members.

After reading the Ellsworth Place neighbors slide deck for tonight, I request that you pull agenda item #7 from consent and make sure the final approvals are what council moved.

The Ordinance needs to match the motion as approved by the City Council. The staff write up was far too liberal in their interpretation and does not match your original decision.

Items that were changed from the council motion in the staff report that need to be amended are

- 1) Delivery trucks: Make sure the wording allows truck delivery on Ellsworth and remove the sign banning trucks over 24 feet.
- 2) Fencing: I agree with the neighbors that the proposed fencing does not allow "adequate transparency", and the fence placement & height differ from both the motion and "CPA Transportation requirements."
- 3) Amend the ordinance to state that the 26' road must be "matching, driveable asphalt to the existing road" and may not use any kind of pavers.
- 4) Revise wording to refer to Ellsworth Place as its legal definition of a "private street" and not as a "driveway".

I have a concern about the major changes (and interpretation of council motions) from staff in ordinance.

Thank you for pulling this item and correcting the ordinance to reflect the council motion.

Annette Glanckopf

Some people who received this message don't often get email from jeff@levinsky.org. [Learn why this is important](#)

CAUTION: This email originated from outside of the organization. Be cautious of opening attachments and clicking on links.

Dear City Councilmembers:

The ordinances for Ellsworth Place on tomorrow's consent calendar unfortunately do not match what you approved on December 11, 2023. Here are two significant problems:

The 702 Ellsworth Sight Triangle

The sight triangles are the area at the corners of Middlefield and Ellsworth in which plants and such must be kept low so that drivers, bicyclists, and pedestrians can see each other. On December 11, 2023, you approved the new PC ordinance for 702 Ellsworth, which specified that the site triangle for 702 Ellsworth shall "extend to the southernmost corner of the property along Middlefield Road."

But the proposed ordinance for February 5, 2024: significantly narrows the sight triangle to just 35 feet across the Middlefield frontage.

Nothing in the Council motion of December 11 changed the size of the sight triangle. The staff report for February 5 contains not one word discussing why staff then made this major change. Additional comments subsequently produced by staff attempt to justify the change by noting that a different motion on December 11 seeking to further enlarge the triangle (and make other changes) failed, but that does not mean the Council somehow agreed to instead significantly shrink the sight triangle. If anything, the fact that the Council rejected a motion that would have altered the sight triangle means Council clearly knew it could do so and opted not to.

Given that the proposed ordinance does not match the safer sight triangle that

was in the ordinance when the Council approved it in December, the item should be pulled from the consent calendar and the sight triangle size restored to how the Council left it.

The Wrought Iron Fence

Council discussed on December 8, 2023 the proposed wrought iron fence to be installed both on the southern side of Ellsworth and the southern portion on Middlefield. During the hearing, the Council noted that one will have to see through two fence sections simultaneously and the proposed wrought iron fence would not work.

The proposed ordinances on the February 5 consent calendar however retain essentially what the Council rejected. The proposed spacing of vertical rails every 4 inches is hardly different from the industry standard for wrought iron fences of 3.875 inches. No drawing or study is presented in either the February 5 staff report nor its subsequent comments to verify how the 4 inch spacing will solve the visibility problem. But having the proposed ordinance now include an exhibit that requires the fence be made of wrought iron removes the possibility of the City mandating better solutions should the 4 inch wrought iron prove no better than what Council already rejected. The exhibit language should be modified to not require a wrought iron fence but instead one of adequate transparency (it currently does not).

Over the years, poorly-written PC ordinances have caused the City and its residents considerable grief, so it's best to fix these problems now when they're spotted. So again, please pull this item off consent.

Thank you,

Jeff Levinsky

Regarding Item #7 Ellsworth - Council Meeting - February 5, 2024

Dear Palo Alto City Council,

For the safety of ALL children and pedestrians who traverse Middlefield Road near Ellsworth Place, please remove agenda item #7 from the 2nd reading this coming Monday, February 5, 2024. The line of sight triangle, fence placement, fence type, and fence height as stated in the ordinance for 702 Ellsworth Place do not match the motion of December 11, 2024.

Ellsworth Place neighbors have repeatedly stated we need to see over to Matadero Creek when exiting Ellsworth Place, and the ordinance language and/or EXHIBIT 1 map as attached to this ordinance, will allow for a 4-foot high fence near the creek, made from wrought iron, which is not transparent when looking through it through two layers of fencing. This is very unsafe and goes against the approved motion.

Please vote to remove agenda item #7 from Monday night's meeting.

Kindly,

Andrea Alberson

- Regarding Item #7 Ellsworth Ordinance - Council Meeting, February 5, 2024

Dear Mayor Stone, Vice Mayor Lauing, and Members of the City Council,

I am writing to request that the council refrain from voting on the approval of agenda item #7 (Ellsworth Place) while further considerations are taken. When rezoning a planned community district I hope that precedent, and benefit for all stakeholders (beyond real estate speculators) are taken into account.

I am concerned that rushing into a vote on a proposal that disagrees with the motion of December 11, 2023 on the matter is not in the best interest of the community. Specifically, what would prevent other developers from splitting out parcels of property meant to service their tenants in private transactions to yield more single family homes? I understand that the city is expected to provide on the order of thousands of additional residences in coming decades and do not see how simply bending planned community ordinance to extract the profit of a few more single family homes sets a reasonable precedent. I argue that if the city council is re-evaluating a planned community that is part of a private street, the precedent and all *current* provisions should be taken into account. This includes unit per acre density and adequate two way vehicle ingress / egress.

Thank you for your public service.

Warmly,
Jake Margolis

Dear Mayor Stone and Members of the City Council,

Please pull Agenda Item #7 from the second reading of the Ellsworth Ordinance on February 5, 2024.

Ensure the safety of all who walk, drive, or bike along Middlefield Road as it crosses Ellsworth Place.

The Palo Alto City Staff made changes to the "line of sight" triangle that were not approved on December 11, 2023. They did not implement "adequate fence transparency" along Middlefield Road between Ellsworth Place and Matedero Creek. I ask that this misinterpretation be corrected at the February 5 City Council Meeting.

Thank you for your service to the City of Palo Alto.

Respectfully, Carolyn V. Garbarino

Regarding Item #7 Ellsworth - Council Meeting - February 5, 2024

Dear Mayor Stone, Vice Mayor Lauing, and members of the City Council,

For the safety of Midtown residents and all who drive or otherwise traverse by Ellsworth Place along Middlefield Road, we ask you to please pull agenda item #7 so that the ordinance can be corrected to what the prior City Council motion required.

The Council motion seeks to address the serious safety problems related to the line of sight and fencing at the proposed property, but the ordinances do not match the motion of December 11, 2023.

I look forward to seeing the corrected materials

Sincerely,

Susan E. Light, MD

Dear Mayor Stone and members of the City Council,

A couple of important items were overlooked in the making of the motion on December 11, 2023. These issues have a direct impact on neighborhood safety and also on my property value. I ask that agenda item #7 be removed from the 2nd reading it is scheduled for on February 5, 2024, so it can be corrected to what the council's motion states, as well as to address the overlooked issue of removing the sign that bans delivery trucks on Ellsworth.

Please pull agenda item 7 and get the ordinance corrected before making it a CPA law. Too much is at stake!

Sincerely,

Tsing Xue

Regarding: Agenda Item #7 - Second reading - Ellsworth Ordinance - Council Meeting of February 5, 2024

Dear Palo Alto City Council,

The Ellsworth Place Neighbors have all worked hard to get safety measures implemented at the intersection of Ellsworth Place and Middlefield Road. The City Council motion of December 11, 2023, reflects these benefits, which were designed for the safety of ALL people who traverse on or near Ellsworth Place.

Unfortunately, City Staff took liberties to undo some of the safety measures as approved by the Council, and they did so based on what the applicant wanted, as was stated in the Council Consent Agenda Responses, "Staff thoroughly reviewed the meeting video and worked with the applicants to revise the ordinances and drawings to reflect the Council's motion." Additionally, several cherry-picked video timestamps were included, which left out pertinent timestamps.

Since when do city staff get to ignore a Council motion to please an applicant? This isn't how democracy works. Please pull agenda item #7 so its language can be corrected to match the motion of December 11, 2023, and properly implement the safety measures.

Sincerely,

Kristen A. Van Fleet

Dear Mayor Stone, Vice Mayor Lauing, and members of the City Council,

You can protect pedestrians, bicyclists, and drivers by restoring pertinent safety measures and delivery services in the 702 Ellsworth Place Ordinance. My objection specifically targets the version presented for the second reading:

- Differs from the Motion of December 11 2023,
- Removes the safer line of sight triangle,
- Allows a fence that does not have "adequate transparency", and
- Bans some delivery trucks on Ellsworth Place after creating a space for them.

Unless the item is removed from consent and fixed, you will be degrading the safety measures and community requirements that you voted for back in December.

Sincerely,

Paul Bigbee

Regarding Council Meeting on February 5, 2024, Agenda Item #7:

Dear Mayor Stone, Vice Mayor Lauing, and members of the City Council,

As a Palo Alto property owner and resident, I'm disappointed that the Palo Alto City Staff revised an ordinance to not match the Council's motion of December 5, 2023, as approved for the new PC governing 702 Ellsworth Place.

We very much appreciate how you and other Council members worked hard to implement safety standards regarding issues brought forth by the Ellsworth Place neighbors. But then, City Staff reinterpreted motion line item 2 and deferred line item 3 without good reason. This is not how a democratic process should work.

Please remove agenda item #7 from the 2nd reading so City Staff can revise the ordinance to match the Council's motion.

Best regards,
Bhanu Iyer
