I request that the City of Palo Alto redact my home address, phone numbers, and email address from the attached Board and Commission Application prior to posting to the City's website.

Personal and Job Experience

Occupation

Startup Founder

Please list your relevant education, training, experience, certificates of training, licenses, and professional registration. If describing work experience, please include company/employer name and occupation.

(621 characters max)

Education:
B.Tech, Electrical Engineering, IIT Kanpur
Ph.D., 3D Computer Vision/Robotics, University of Maryland/NUS

Experience:
Research Scientist, Amazon: Advanced computer vision techniques.
Lead Software Engineer, Magic Leap: Led augmented reality projects.
Director of AI, Hover3D: Pioneered 3D modeling for home exteriors.

Current Role:
CEO, Trisetra: We make 3D visualization easy for homeowners. Trisetra's app enables homeowners and professionals to collaborate effectively by navigating and annotating 3D models of homes under construction. This facilitates superior spatial understanding, aiding in the optimization of architectural designs and enhancing stakeholder communication.
My background marries technical innovation in 3D visualization and AI with practical applications in construction and design. I'm committed to leveraging this expertise to contribute to the Architectural Review Board's mission of promoting sustainable and thoughtful urban development in Palo Alto.

Please describe your involvement in community activities, volunteer and civic organizations, including dates and any offices held.

(1311 characters max)

Though I haven't directly engaged in volunteer or civic organizations due to intensive professional endeavors, my work, notably with Trisetra, aligns with societal betterment through technology. We enhance home construction and design communication via 3D visualization, underscoring a commitment to community improvement.

I'm now eager to translate this commitment into direct community service, particularly in technology's role in sustainable urban development. My candidacy for the Architectural Review Board is a step toward this goal, aiming to contribute my expertise to Palo Alto's inclusive and sustainable planning efforts.

I look forward to expanding my involvement in civic and volunteer initiatives, leveraging my background to enrich our community's quality of life.

Application Questions

1. Why are you interested in serving on the Architectural Review Board and what experience would you bring to the position?

(1449 characters max)

My interest in the Architectural Review Board is driven by a passion for integrating technology with design to enhance living spaces. My background in 3D visualization and computer vision, developed through roles from Research Scientist to CEO of Trisetra, equips me with unique insights into the transformative potential of architectural planning.

At Trisetra, I've pioneered tools that enable stakeholders to visualize construction projects in 3D, enhancing design clarity and communication. This experience has refined my ability to bridge technical innovation with practical design applications, ensuring projects are both

aesthetically pleasing and functionally superior.

I aim to contribute this blend of technological expertise and visionary thinking to the Board, promoting sustainable, efficient, and user-centric urban development. My commitment is to leverage my skills to help Palo Alto achieve architectural excellence that mirrors its community's values and forward-thinking spirit.

2. Please describe an issue that recently came before the Board that is of particular interest to you and describe why you are interested in it.

(1449 characters max)

Archived video meetings are available from the [Midpen Media Center](#).

The recent Palo Alto revisions to SB9, streamlining design rules from 64 to 19, caught my interest. The initial response to SB9 highlighted the challenge of balancing community integrity with housing needs. My passion lies in utilizing technology to bridge such gaps. I see the confusion around SB9 applications as an opportunity to leverage advanced visualization technologies. By presenting design rules through clear animations instead of traditional sketches and 2D drawings, we can demystify regulations for homeowners and architects alike. This approach not only enhances transparency but also streamlines the planning process, making it more accessible and engaging. My experience in 3D visualization at Trisetra underpins my belief that such technological solutions can significantly improve communication and understanding in urban planning and development.

3. If you are appointed, what specific goals would you like to see the Architectural Review Board achieve, and how would you help in the process?

(1587 characters max)

If appointed, I'd focus on sustainable development, community engagement, and leveraging technology. I'd advocate for integrating sustainable design principles, ensuring projects align with environmental goals. To enhance public involvement, I propose digital platforms for transparent communication and feedback on projects. Additionally, I'd champion the use of 3D visualization tools to streamline the review process, providing clearer project insights and facilitating more informed decisions. My expertise in technology and commitment to sustainability will help make the architectural review process more efficient, inclusive, and aligned with Palo Alto's growth objectives.

4. Please identify a project (or projects) that you find to be examples of good architecture, and explain why. You may include samples, identify project addresses, or provide links.

(1035 characters max)

The Magical Bridge playground in Mitchell Park is a great example of good architecture that combines utility and beauty.

5. Architectural Review Board Members work with the documents listed below. If you have experience with any of these documents, please describe that experience. Experience with these documents is not required for selection, but will help you better understand the work of the board.

GRADUATE OF LA JOLLA HIGH SCHOOL IN LA JOLLA CA. BACHELOR OF ARCHITECTURE DEGREE FROM PRATT INSTITUTE IN NEW YORK CITY. LICENSED ARCHITECT IN NEW YORK, CALIFORNIA AND HAWAII. MEMBER OF THE AMERICAN INSTITUTE OF ARCHITECTS. WORKED AS AN ARCHITECT DESIGNING RESIDENTIAL BUILDINGS IN NEW YORK CITY FROM 1990 TO 1998. WORKED AS AN ARCHITECT IN SAN FRANCISCO DESIGNING RESIDENTIAL ARCHITECTURE FROM 1998 TO THE PRESENT. ESTABLISHED GEDDES ULINSKAS ARCHITECTS IN 2005. LEED CERTIFIED IN 2012.

Employment Information
Company/Employer Name

GEDDES ULINSKAS ARCHITECTS

Occupation

ARCHITECT

Is your Company/Employer your current one or last?

Current Employer

Please describe your involvement in community activities, volunteer and civic organizations, including dates and any offices held.
(1311 characters max)

BESIDES DESIGNING RESIDENTIAL BUILDINGS, I HAVE DEVELOPED EDUCATION FACILITIES, DAY CARES AND PLACES OF WORSHIP SUCH AS SYNAGOGUES. MY CLIENTS INCLUDE THE RUSSIAN SPEAKING JEWISH COMMUNITY IN THE RICHMOND AND CONGREGATION CHEVRA THIMIL IN SAN FRANCISCO. I HAVE VOLUNTEERED FOR THE SAN FRANCISCO FOOD BANK AND THE SIERRA CLUB. I HAVE ALSO PARTICIPATED IN CHARITABLE DESIGN FOCUSED EVENTS SUCH AS BREAK THE CYCLE - TO BENEFIT AT RISK CHILDREN, AND THE SAN FRANCISCO DESIGNER'S SHOWCASE TO RAISE MONEY FOR UNIVERSITY HIGH SCHOOL.

Application Questions

1. Why are you interested in serving on the Architectural Review Board and what experience would you bring to the position?
(1449 characters max)

I HAVE A DEEP KNOWLEDGE OF HISTORICAL DESIGN AND HISTORIC HOMES. MY STUDY OF ARCHITECTURE IN NEW YORK AND PRACTICE OF ARCHITECTURE AND PRESERVATION IN NEW YORK ALLOWED ME TO WORK ON MANY CLASSICAL REVIVAL AND EARLY MODERN HOMES ON THE EAST COAST. I AM PASSIONATE ABOUT MANY OF THE NEIGHBORHOODS IN PALO ALTO SUCH AS PROFESSORVILLE AND BARON PARK AND WOULD LIKE TO USE MY EXPERIENCE TO ENCOURAGE PRESERVATION OF HISTORIC NEIGHBORHOODS AS WELL AS THE DEVELOPMENT OF QUALITY STRUCTURES IN WHAT IS ADDED TO PALO ALTO.

2. Please describe an issue that recently came before the Board that is of particular interest to you and describe why you are interested in it.
(1449 characters max)

I WAS INTERESTED IN THE BOARDS GUIDANCE OF THE REPLACEMENT FIRE STATION AT 3600 MIDDLEFIELD ROAD. FIRE STATIONS ARE ESSENTIAL SERVICES STRUCTURES AND HAVE A CLEAR UTILITY TO THE NEIGHBORHOOD, BUT THEY ARE ALSO A BENCHMARK FOR THE QUALITY THAT THE CITY IS WILLING TO

INVEST IN ITS OWN BUILDING PROJECTS. THE BOARD CAREFULLY CONSIDERED EVERYTHING FROM EXTERIOR MATERIALS AND MASSING, TO THE OPEN SPACE AROUND THE FIRE STATION AND HOW IT RESPONDED TO THE NEIGHBORHOOD AND SURROUNDING SITE. I WAS IMPRESSED BY THE THOUGHTFUL NATURE OF THE COMMENTS BY THE BOARD MEMBERS TOWARD THE APPLICANT AND THE SUGGESTIONS FOR THE APPLICANT TO CONSIDER ALTERNATE MATERIAL CHOICES AND CONTRAST BETWEEN BUILDING SURFACES.

3. If you are appointed, what specific goals would you like to see the Architectural Review Board achieve, and how would you help in the process?
(1587 characters max)

IF APPOINTED, I WOULD LIKE TO SEE THE ARCHITECTURAL REVIEW BOARD CONTINUE ITS LEADERSHIP IN ENCOURAGING SUSTAINABLE SOLUTIONS TO DESIGN. WITH MY EXPERIENCE IN THE ARCHITECTURAL DESIGN FIELD AND RELATIONSHIP WITH MANY GREEN BUILDING CONSULTANTS, I WOULD BE A RESOURCE TO THE BOARD TO IDENTIFY PRACTICAL, EFFECTIVE GREEN BUILDING PRACTICES. I AM ALSO AN AVID CYCLIST, COMMUTING BY BICYCLE TO CAL TRAIN ON DAYS I TRAVEL TO SAN FRANCISCO. I WOULD CONSTANTLY BE LOOKING FOR WAYS TO MAKE THE PEDESTRIAN AND CYCLING EXPERIENCE OF PALO ALTO THE BEST IT CAN BE.

4. Please identify a project (or projects) that you find to be examples of good architecture, and explain why. You may include samples, identify project addresses, or provide links.
(1035 characters max)

THE NEW POWER FACILITY AT STANFORD IS A BEAUTIFUL EXAMPLE OF THOUGHTFUL, ELEGANT DESIGN. EVEN THOUGH THERE ARE MANY INDUSTRIAL ELEMENTS TO THIS DEVELOPMENT, THE RIGHT AMOUNT OF ARCHITECTURE IS WOVEN AROUND THE PHYSICAL PLANT TO CREATE SOMETHING THAT LOOKS LIKE IT IS A BEAUTIFUL ADDITION TO THE CAMPUS. ALTHOUGH EICHLER HOMES HAVE BEEN AROUND FOR A LONG TIME, I AM A FAN OF THEIR SIMPLICITY AND ELEGANCE. I HAVE ENJOYED SEEING HOW MANY ORIGINAL EICHLER HOMES THERE ARE IN PALO ALTO AND HOW WELL THEY ARE PRESERVED, OR HAVE BEEN UPDATED IN A WAY THAT RESPECTS THE INTEGRITY OF THE DESIGN.

5. Architectural Review Board Members work with the documents listed below. If you have experience with any of these documents, please describe that experience. Experience with these documents is not required for selection, but will help you better understand the work of the board.
(1173 characters max)

[Palo Alto 2030 Comprehensive Plan \(2017\)](#)
[Zoning Code](#)
[El Camino Real Design Guidelines](#)
[El Camino Real Master Plan Study \(2007\)](#)

Personal and Job Experience

Occupation

Principal Designer

Please list your relevant education, training, experience, certificates of training, licenses, and professional registration. If describing work experience, please include company/employer name and occupation.

(621 characters max)

Kendra Rosenberg is the principal designer of KNR Design Studio. She has over 18 years of design experience spanning luxury hotels, high-end residences, and modern and traditional houses. She holds a Masters in Architecture and a Certificate in Building Science from the University of Southern California, where she won multiple awards for her architectural designs. Kendra is a U.S. Green Building Council LEED® Accredited Professional (LEED AP BD+C) and an associate member of American Institute of Architects (AIA). Currently serving as Vice Chair of the Palo Alto ARB.

Please describe your involvement in community activities, volunteer and civic organizations, including dates and any offices held.

(1311 characters max)

Kendra currently serves as Vice Chair of the Palo Alto Architectural Review Board (ARB). She was a founding board member of The Magical Bridge Playground in Palo Alto, providing her expertise to develop a playground site for children of all abilities. She has also repeatedly designed for the Dreams Happen playhouse fundraising event, supporting Rebuilding Together Peninsula.

Application Questions

1. Why are you interested in serving on the Architectural Review Board and what experience would you bring to the position?

(1449 characters max)

I have served for 2 years on the ARB and have thoroughly enjoyed the experience thus far. As a residential designer, I regularly sit on the "other side of the table" when presenting my projects, and have learned a lot from the experience on this side of the decision making process.

2. Please describe an issue that recently came before the Board that is of particular interest to you and describe why you are interested in it.

(1449 characters max)

Archived video meetings are available from the [Midpen Media Center](#).

We have covered a plethora of issues that I have found to be interesting. Having been born and raised in Palo Alto, I have a somewhat unique perspective of having watching the city grow and change over the past 4 decades. Larger urban planning and setting standards for types of proposed housing (townhouses, condos, etc.) are of significant interest to me.

3. If you are appointed, what specific goals would you like to see the Architectural Review Board achieve, and how would you help in the process?

(1587 characters max)

I would like to see the ARB review larger urban planning for specific areas to allow for unified, thoughtful, and comprehensive growth of the city. With many SB-330 projects on the horizon, getting low income housing is of critical importance, and making sure we meet our housing growth in a considerate way will be vital.

4. Please identify a project (or projects) that you find to be examples of good architecture, and explain why. You may include samples, identify project addresses, or provide links.

(1035 characters max)

I found the new proposed building at 3300 El Camino (in front of the existing Rivian building) to be a very interesting project that crossed ARB's table. The methods of large timber construction, lots of glass, and living roofs were elegant and thoughtful. Also, the proposed "Cenote" Senior Citizen living facility at 824 San Antonio. We have a growing elderly population and will need more of these types of buildings in the near future.

5. Architectural Review Board Members work with the documents listed below. If you have experience with any of these documents, please describe that experience. Experience with these documents is not required for selection, but will help you better understand the work of the board.

(1311 characters max)

Currently a board member on the Palo Alto Architecture Review Board (since October 2023).
AIA Columbus Board of Directors - 2008-2010

Application Questions

1. Why are you interested in serving on the Architectural Review Board and what experience would you bring to the position?

(1449 characters max)

I am interested in making a positive impact in my community. I have been working in Palo Alto for over a decade and have seen the impact the ARB can make in shaping the built environment around us. Though my work in designing various projects at Stanford University, UC Santa Cruz, UC Berkeley, various K-12 schools and several community facing public and private projects in the bay area, I have learned to work within the context of my projects, design impactful projects and be an engaged listener for all the constituents.

I am currently a board member on the Palo Alto Architecture Review board and I believe my experience has served me well in the ARB. Although I have been on the board for only a few months since I was appointed to finish a previous board member's term, I believe I have an effective board member providing thoughtful comments to improve the designs that the board has reviewed in these months. I look forward to the opportunity to continue to serve the city.

2. Please describe an issue that recently came before the Board that is of particular interest to you and describe why you are interested in it.

(1449 characters max)

Archived video meetings are available from the [Midpen Media Center](#).

70 Encina was presented to the board for preliminary review on December 7, 2023. This project is trying to develop an existing parking lot for much needed housing in Palo Alto. However, its site (a privately owned parcel) directly adjacent to Town and Country posed significant challenges to all parties – developer, architect, neighbors and the city. This is one of those instances where a master plan for the entire street for densifying and proving housing ahead of projects like this would be extremely beneficial. We, the ARB, provided preliminary feedback reviewing the project at hand, addressing the design as presented and with attention to the unusual constraints of this project. I found it particularly interesting because it highlighted the need for more global planning (knowing it is difficult with limited resources).

3. If you are appointed, what specific goals would you like to see the Architectural Review Board achieve, and how would you help in the process?

(1587 characters max)

I am passionate about the environment. The design community must make impactful improvements in the way we design and build that responds to global warming. The ARB is a catalyst that can help reduce the built environment's greenhouse gas emissions. Though my experience in working on LEED projects and other sustainability measures, I plan to bring my knowledge and experience to inform the ARB's review of projects and future developments.

4. Please identify a project (or projects) that you find to be examples of good architecture, and explain why. You may include samples, identify project addresses, or provide links.

(1035 characters max)

My own firm, CAW Architects' project, the Palo Alto Junior Museum and Zoo is a complex project that is located next to Walter Hays Elementary School, Rinconada Park and single family residences across the street. The design responds to the scale of the neighborhood while creating a large interior museum space that engages babies to teenagers and adults. The choice of exterior and interior materials, scale of spaces (both interior and exterior), spaces designed to house wildlife as close to their natural habitat as possible are all pieces of the puzzle that comes together in a way that looks effortless. The project was a very close collaboration between the design team, the Friends of the P.A. Junior Museum and Zoo and the City of Palo Alto. The project is not only an example of good architecture but also of the city and the community's commitment to provide and maintain a valuable resource.

5. Architectural Review Board Members work with the documents listed below. If you have experience with any of these documents, please describe that experience. Experience with these documents is not required for selection, but will help you better understand the work of the board.

(1173 characters max)

[Downtown Urban Design Guidelines \(1993\)](#)

Other documents listed on [this website](#) as well.

Several of the projects I have worked on have been renovations or additions to historically significant buildings, either listed or eligible properties. For instance, in 2023, we won the California Preservation Foundation award for the project we designed on the U.C. Berkeley Greek Theatre site. That was an award for Contextual Infill. Our project was an addition to the theatre site with clarity of existing vs. new construction – compatible with the existing context. Our projects in historical context pay close attention to the Secretary of Interiors Standards for treatment of Historic properties.

MOUSAM ADCOCK AIA, LEED AP

PRINCIPAL

Mousam Adcock has over nineteen years of experience in the practice of architecture. Mousam has a diverse experience in higher education work for private and public entities and commercial design. She brings a wealth of experience from programming to design and construction administration. In her 11 years with CAW Architects, Mousam has completed the design and construction of a new 56,000 square feet conference center and office building for the Hoover Institution at Stanford University, renovation of Hohbach Hall at the Green Library, Stanford University, a new science building for Monterey High School, the renovation and new construction project for Merrill College, UCSC, among others. She is currently leading the construction administration effort for another new building for the Hoover Institution and recently completed the design documents for a new building and a renovation for the Graduate School of Education at Stanford University. She is also designing a new YMCA building in Redwood City that will be a mass timber construction.

Mousam was an adjunct faculty at The Ohio State University, School of Architecture for five years and a board member for the American Institute of Architects, Columbus Chapter for two years during her residency in Columbus, Ohio.

SELECTED PROJECTS

Graduate School of Education, Stanford University
Green Library, Stanford University
Schultz Building, Stanford University
Hoover Institution Traitel Building, Stanford University
Stanford Crown Hall Library Renovation, Stanford University
Wallenberg First and Fourth Floor Renovations, Stanford University
Programming and Expansion Studies, The Hoover Institution, Stanford University
Mirada House, Stanford University
Encina Commons Study, Stanford University
Merrill College Renovations & Plaza Building, U.C. Santa Cruz
Merrill Cultural Center Renovations, U.C. Santa Cruz
Monterey High School Biotechnology Wing, Monterey Peninsula Unified SD
Silver Creek High School Building K, East Side Union HSD
Greek Theater Restrooms, Concessions Building & Plaza, U.C. Berkeley

AWARDS AND COMPETITIONS

Hoover Institution Traitel Building, Stanford University - AIA Silicon Valley Merit Award 2018
Greek Theater Restrooms, Concessions Building & Plaza, U.C. Berkeley - California Preservation Foundation Design Award for Contextual Infill 2023
Her Place Design Challenge - Design Competition organized by Building Trust International for a Women's Empowerment Center for Devchuli, Nepal - Honorable Mention 2021

EDUCATION

The Ohio State University, Master of Architecture, 2004
Lafayette College, Bachelor of Science in Civil and Environmental Engineering, 2001
Lafayette College, Bachelor of Arts in Art, 2001

AFFILIATIONS LICENSED ARCHITECT IN CALIFORNIA (C33958)

(1311 characters max)

I have attended meetings in Santa Clara County, San Jose, Palo Alto, with a strong interest to help improve the City and to preserve specifically in Palo Alto the practices, traditions that support the preservation of resources and its cultural diversity as well as its History, Architecture, voting with the building and management decisions of the City, the time I lived in Palo Alto and the time I have been living in San Jose, and Santa Clara County, attended the Democratic Party meetings and public gatherings, to some extent, making recommendations for city and county improvement. I have worked in voter registration twice for a former city with care and concern for the city and vote regularly.

Application Questions

1. Why are you interested in serving on the Architectural Review Board and what experience would you bring to the position?

(1449 characters max)

I bring 15 plus years of experience in numerous applicable disciplines-resume.

2. Please describe an issue that recently came before the Board that is of particular interest to you and describe why you are interested in it.

(1449 characters max)

There is no issue that came before, but many I did hear during the meetings while living in Palo Alto, from transportation to governmental concerns, safety, to public issues, to cultural concerns and Hi-Tech, transportation and Traffic concerns, safety and elderly concerns, management of lands, resources and water that all concern me.

Archived video meetings are available from the [Midpen Media Center](#).

3. If you are appointed, what specific goals would you like to see the Architectural Review Board achieve, and how would you help in the process?

(1587 characters max)

To preserve the Historical traditional beauty of this fine city, and maintain its lasting legacy to the residents and generations to come, help with all aspects of city maintenance and needs, special concerns for all citizens in Palo Alto, for peace and prosperity for posterity.

4. Please identify a project (or projects) that you find to be examples of good architecture, and explain why. You may include samples, identify project addresses, or provide links.

(1035 characters max)

There was a parks center project I recall and Golf Course, as well as the museum and a number of historical buildings, the J Paul project I witnessed and other building projects, Police and Fire Department which are all important as well as numerous old buildings with the old historic beauty of its unique architecture which needs to be maintained, we have

more modern structures and we cannot lose the Historic beauty and charm of the city.

5. Architectural Review Board Members work with the documents listed below. If you have experience with any of these documents, please describe that experience. Experience with these documents is not required for selection, but will help you better understand the work of the board.

Employment Information Company/Employer Name	Stanford University: University Architect, Campus Planning & Design
Occupation	Director of Architecture

Please describe your involvement in community activities, volunteer and civic organizations, including dates and any offices held.

(1311 characters max)

I lived in San Francisco from 1999 - 2023, but never held any official public office or had ample time to volunteer to help my local community. After 20 years commuting to Stanford every day, I finally moved to Palo Alto in the summer of 2023. I have spent the majority of my career helping to guide the planning and design of the Stanford's Land, Buildings and Real Estate, including:

Stanford University
Stanford Redwood City
Stanford Belmont
Stanford Research Park
Stanford Linear Accelerator Center
Stanford Shopping Center

Activities & Volunteering:

Series Director
Stanford University Spring Lecture Series in Architecture + Landscape + Urban Design
June 2012 – Present

Studio Critic & Lecturer
Stanford University - Architectural Design Program
Jan 2016 - Present

Studio Critic
Academy of Art University - School of Architecture
Jan 2018 - Present

Application Questions

1. Why are you interested in serving on the Architectural Review Board and what experience would you bring to the position?

(1449 characters max)

During my 20 years working at Stanford Hospital and Stanford University, I have performed many different roles in the public process on behalf of those institutions, including:

Entitlements Manager
Project Manager
Campus Planner
Director of Architecture

I have collaborated with CoPA Planning, Public Works, Transportation, Fire & Police Departments. I have presented at ARB, Planning Commission, and City Council meetings. In my capacity as landlord, I have successfully guided dozens of Research Park and Shopping Center tenants through the ARB process. I believe I have a strong understanding of the values of the Palo Alto Community and the ARB, and the public process of planning and design review.

I realize that I would need to recuse myself from Stanford projects, but I still feel that I could make a positive impact on the ARB.

I am overjoyed to finally be living in Palo Alto, and would love the opportunity to help guide the future of the Palo Alto built environment.

2. Please describe an issue that recently came before the Board that is of particular interest to you and describe why you are interested in it.

(1449 characters max)

Archived video meetings are available from the [Midpen Media Center](#).

We currently have a housing crisis in the State of California, and are woefully behind in supplying sufficient affordable workforce housing for the Palo Alto Community. I believe that the next few years will bring many new multi-family residential projects, and there will be a lot of pressure on the ARB to ensure that the density and quality of these projects meet the high standards of the Palo Alto Community. Many existing residents love the historically low-density character of this area, and do not want to see it change. But we must all adjust to an increased population density, and I believe the design community is creative and collaborative enough to solve this critical social problem.

3. If you are appointed, what specific goals would you like to see the Architectural Review Board achieve, and how would you help in the process?

(1587 characters max)

One of the primary roles in my current position is to critique planning and design within a specific context. This requires the ability to zoom in & out of a project: focusing on the detail of how the proposed project itself is designed, while also considering how it meshes with the broader neighborhood. This ability to focus on different scales is critical to guiding design professionals who do not spend as much time in our community as we do.

I also take pride in my ability to remove my own ego from the design process. My goal is not to make my personal imprint on a project. Rather, it is to assist the consultant teams to reach the optimal version of their concept & design. This often involves a skill for asking the right questions of the designer, rather than proposing specific solutions. I think I could help project applicants to clarify their own objectives in order to validate (or modify) their proposed solutions.

4. Please identify a project (or projects) that you find to be examples of good architecture, and explain why. You may include samples, identify project addresses, or provide links.

(1035 characters max)

One of the projects that I am proudest of is the Center for Academic Medicine: 453 Quarry Rd, Palo Alto, CA 94304

<https://www.hok.com/projects/view/stanford-university-school-of-medicine%E2%80%AFcenter-for-academic-medicine/>

The site is at the threshold between the bustling Stanford Medical Center and the sprawling open space of Stanford's Arboretum. This unique dichotomy of active and passive, suburban and rural, became a key driver for the massing of the complex. We chose to spend a premium to construct all of the required parking below grade, and preserve a generous portion of the ground plane for a communal plaza and courtyard. The primary façade along Quarry Road is lifted 2 stories off the ground in order to welcome the community into the project realm, and enjoy view to the Arboretum beyond. We further activated the ground plane by locating the most communal program elements at grade, including: restaurant (public), fitness center, genius bar, and conference center.

5. Architectural Review Board Members work with the documents listed below. If you have experience with any of these documents, please describe that experience. Experience with these documents is not required for selection, but will help you better understand the work of the board.
