

FINANCE COMMITTEE MEETING 5/5/2023

[X] Placed Before Meeting [] Received at Meeting #1

City of Palo Alto

MEMORANDUM

To: Finance Committee

Date: May 5, 2023

SUBJECT: Agenda Item #1: Additional Information

Staff would like to provide the Finance Committee additional information for the May 5 and May 9 FY 2024 Budget Hearing meetings. This material is supplemental in nature and does not reflect any recommended changes, it is for information and reference only.

Information to Assist the Finance Committee During the Budget Review Process

In previous years, the City Council has made a variety of requests to provide context and/or additional data points of reference to aid in budget deliberations. Staff has compiled these items to assist the Finance Committee's review of the FY 2024 Proposed Budget documents.

Capital Fund Reappropriation List

City Council authorization is required for Capital funds to be carried forward from one fiscal year to the next (Palo Alto Municipal Code 2.28.090, amended September 2014). There are several opportunities for departments to request funds to be carried over from one fiscal year to the next.

First, is the proposed budget process that the Finance Committee is reviewing. Departments may request funds to be carried over from one year to the next through the budget process. By estimating lower than budgeted expenditures in the current year (FY 2023), funds not anticipated to be spent in the current year but still required for the completion of the project are reflected in the first year (FY 2024) of the five-year CIP. The Fund Narrative for each fund indicates the total amount of reappropriations included in this budget.

Second, is the Budget Wrap-up with the Finance Committee (scheduled May 30, 2023) where staff typically bring a list of final amendments to the proposed budget that include refinements to reappropriation assumptions.

Lastly, as part of the year-end closing actions anticipated to be brought forward for City Council approval in the Fall, all projects will be reviewed to determine if additional adjustments to reappropriations are required.

Attachment A shows the reappropriated amounts by fund and by capital project estimated not to be spent in FY 2023 that are included in the proposed budget, the first opportunity listed above. These amounts are recommended to be reappropriated to FY 2024 to continue work on the projects and keep the total project budgets intact over the five-year CIP and are reflected in the FY 2024 Proposed Capital Budget.

Additional Staffing Information – Vacancies, Recruitment, & Retention:

In FY 2023 to date, turnover has decreased significantly - 18 employees separated in this period compared to 58 in the same period in FY 2022. This can be attributed to the City's specific focus on being an employer of choice – ensuring a positive work environment as well as resetting target salaries and benefits for flexibility – and has positively impacted employee retention.

Vacancy Report: A list of full-time (benefitted) positions that are vacant throughout the City is detailed in **Attachment B**. This attachment includes the position title, vacancy date, hiring status, and the distribution of the position allocation by fund.

	May 2022	FY 2022	May 2023	FY 2023			
	Vacancies*	Adjusted Budget*	Vacancies**	Adjusted Budget**			
General Fund	58.75	519.46	64.68	557.56			
Enterprise Funds	68.00	364.08	66.45	371.58			
Other Funds	13.00	92.46	12.12	94.46			
Total	139.75	976.00	143.25***	1,023.60			
Citywide Vacancy Rate		14.3%		14.0%			

Summary Comparison of Vacancies Citywide May 2022 & May 2023

* May 2022 Vacancies and FY 2022 Adjusted Budget include 20.00 full-time positions (12.66 in the General Fund) added in FY 2022 Q1, SAFER Grant, and FY 2022 Midyear.

** May 2023 vacancies and FY 2023 Adjusted Budget include 5.25 full-time positions (4.25 in the General Fund) added in FY 2023 Midyear and 0.50 FTE full-time position added to the General Fund for the permanent parklet program.

*** As indicated in Attachment B "status", nine of these positions are in the process of being onboarded and five have had offers extended.

Factors Impacting Vacancy Rate (Turnover, New Positions, Promotions): A change in the vacancy rate is dependent on successfully hiring candidates to fill open positions and retain current talent especially as new positions continue to be added. Added positions continue to impact the vacancy rate, if new capacity was not added, the vacancy rate would lower. Internal promotions create new additional vacancies too. Although this is an impact, promotional opportunities increase employee engagement and provide growth for the workforce. Key factors contributing to the vacancy rate include:

- Added positions of 47.60 FTE, including 25.25 positions added in Midyear processes, moving vacancy statistics every six months
- 79 positions filled internally, creating a corresponding number of additional vacancies
- A continuing difficult hiring market

Positions continue to be hard-to-fill, particularly technical positions. However, the City is receiving an increase in the number of applications for administrative positions and when possible will increase efficiency by consolidating to fill multiple positions with the same applicant pool.

Recruitment & Retention Activities Underway: The City is working on both recruitment and retention strategies to aid in reducing vacancies in addition to the new employee group contracts and compensation plans.

• *Expedited Hiring Process Pilot:* HR has increased recruitment capacity through an Expedited Hiring Process pilot supported by 5 department HR Liaisons. Liaisons have been trained to

support department hiring managers to review applications, complete the logistics necessary to schedule interviews, and complete reference checks. This has been a force multiplier in recruitment capacity and has been key in Public Works and Utilities. Other streamlining measures include:

- Allowing departments to make hiring offers contingent on passing background process;
- o Use of additional consultant to handle additional mid-management recruitments;
- Changes to minimum qualifications if possible.
- Positive Work Environment Initiative: The City's goal to position Palo Alto as an employer of choice includes strengthening the City work environment, key to recruitment and retention. By supporting the workforce in areas such as providing professional development opportunities and employee training, providing a hybrid or flexible work schedule, striving for work life balance and employee resilience, the organization's commitment to the workforce is reinforced. This provides employees with a culture to thrive and do their best work for the Palo Alto community.

General Fund Vacancy Rates and Savings: The vacancy rate for the General Fund as of May 2023 is 11.6% (64.68 FTE vacancies to 557.56 FTE). Vacancy savings from Public Safety positions are typically exhausted by uses such as backfill, hire ahead programs, and overtime. Adjusting for Public Safety, the General Fund has a vacancy rate of 8.3% and budgeted vacancy savings of approximately 3%.

In recent years the General Fund has seen \$1-2 million in actual vacancy savings above what is accounted for budgetarily. Throughout the year, vacancy savings are utilized by operating departments. Some recent examples of vacancy savings use include filling staffing gaps by contracting for professional services, hiring ahead for technical positions to allow overlap and smooth transitions, piloting new technologies to increase efficiency in the absence of staff, and supporting a summer internship program.

It is important to consider that even if positions are vacant, there are still associated costs. For example, the City contributes to proactive retirement funding and is responsible for the Unfunded Accrued Liability (UAL) allocated to that position regardless of whether the position is filled. At the direction of the Council these costs are administratively allocated by position, which means that even if the position is vacant, the full budgeted cost will not result in savings to the City.

Service Provider Spend Report for FY 2021, FY 2022, and Year-to-Date FY 2023

Attachment C is a list of service providers where the City spent more than \$1 million between FY 2021 through FY 2023 (year-to-date).

Department Organization Charts

This link - <u>City of Palo Alto Budget</u> - contains Organizational Charts, under "Budget Process / Budget Overview" displaying the divisional structure and manager to employee span of control for each City department; positions with supervisory responsibilities are shown in green. These charts display City Council authorized staffing levels as of May 4, 2023, and do not show staffing changes recommended in the FY 2024 Proposed Budget, as those changes have not been approved by the City Council. These charts show vacant positions as of May 4, 2023, but do not show temporarily approved staffing needs as a result of vacancies across the City.
